GRAND OPENING

ADRIA TECH TECHNOLOGY PARK

Thursday, 13 May 2026

Šibenik, Južna magistrala 15, Croatia

You are cordially invited

The ADRIA TECH Technology Park, located in Šibenik on the Adriatic coast, is opening its doors as the first specialized regional center for the development, testing, and commercialization of advanced marine and water technologies.

ADRIA TECH is established as a joint initiative of DIH Innovamare, the Šibenik-Knin County, and the Croatian Chamber of Economy, with the aim of creating an innovation hub focused on the development and application of advanced technologies in the field of marine and water systems.

In 2024, DIH Innovamare was recognized by the European Commission and the European Investment Bank as a **Blue Champion**—an initiative with high potential for innovation in the blue economy sector. The hub brings together research institutions, industry, startups, and the public sector to develop solutions in the fields of robotics, artificial intelligence, autonomous systems, IoT technologies, and digital solutions for the protection of marine and water environments.

In 2025, as a partner of Aarhus University in Denmark, DIH Innovamare secured the largest research and innovation project in the Republic of Croatia—**EIT Water**—focused on water protection and sustainable blue economy innovation. Through this, Innovamare has positioned itself as a central hub for the development of sustainable blue economy solutions across the Adriatic-Ionian region.

ADRIA TECH spans 1,100 m² and includes 6 offices, 4 specialized workshops (up to 100 m² each) equipped for development and servicing, as well as a pilot center for operating surface and underwater drones. The park also has access to dedicated marine test zones, developed in cooperation with the Šibenik-Knin County, enabling real-world testing of technologies in a natural marine environment.

ADRIA TECH Technology Park is focused on the development and testing of advanced technologies for the marine and water sectors, including autonomous and unmanned systems, sensor and monitoring technologies, solutions for water resource protection and management,

sustainable marine solutions and alternative fuels, as well as smart maritime and water systems. A special emphasis is placed on the testing, demonstration, and validation of technologies in real-world conditions at sea, as well as in rivers and lakes.

We are pleased to invite you to be part of this important event, marking a new chapter in the development of marine and water technologies in Croatia and the wider region, with the ambition of positioning the Adriatic region as a leader in maritime and water technology development.

PROGRAMME

Wednesday, 13 May 2026

ADRIA TECH Technology Park – Južna magistrala 15, Šibenik, Croatia
Maximum 100 participants

10:40 – 11:00

Registration

11:00 – 11:25

Opening Speeches

City of Šibenik | Croatian Chamber of Economy | Šibenik-Knin County |
Ruđer Bošković Institute | Ministry of Regional Development and EU
Funds (to be confirmed) | Ministry of Defence of the Republic of Croatia
(to be confirmed) | Ministry of Economy (to be confirmed) | Ministry of
Environmental Protection and Green Transition (to be confirmed)

11:25 – 11:40

Innovamare Innovation Ecosystem Presentation

Mateo Ivanac

11:40 – 12:40

**Panel: Croatia as a Leader in Marine and Water Technology
Development**

Representatives of marine and water technology companies; CoE Marble,
SeaCras, ARGUS Anchortag, Hartera Robotics, BlueDataB

12:40 →

Technology Showcase & Technology Park Tour

RSVP & Contact

Please confirm your attendance by 30 April 2026.
